"Washington, May 16.—J. W. Balley, United States Senator: I have your letter of today, and I enclose to you a letter of today, and I enclose to you a copy of a memorandum sent by me to the White House on the morning of Wednesday, April 11. I think the memorandum was not dated, but my retained copy is dated April 11. I did not therein give the president any assurances as to your attitude relative to the so-called game, because I had not seen you and did not feel authorized by anything Mr. Tillman had then said to give any assurance in your name. At b. p. m. I saw Mr. Tillman and talked with him fully and he then told me that neither he nor yourself were entering into games with the railroad senators; and at 9.20 I saw the president and to give any least of the president with a suspicion of the suspicion of the house to the section making judges, justices, clerks and officers of the suspicion of the house to the section making judges, justices, clerks and officers of this great measure. I have no words to express my opinion of those who would treat with those whom they suspict of treachery, and only traitors.

Continuing, he said:

"The president did not consider this memorandum an impeachment of my good faith. The proof of that is that, with the memorandum before him, was of the opinion that the object attained was worth the sacrifice. Mr. Hepburn was of the opinion that the object attained was of the opinion that the object attained was of the opinion that the sacrifice must be made in getting to courts of competent jurisdiction for purposes of competent jurisdiction for purposes of competent jurisdiction for purpose.
